1. AO = Administrative Order closed after compliance with the requirements of the order; APO = Administrative Penalty Order requiring compliance with environmental regulations and assessing a penalty; CACO = Consent Agreement and Order requiring compliance with environmental regulations and/or assessing a penalty; CJ = Civil Judicial Case with the Department of Justice

2. All penalties are Final

3. SEP = Supplemental Environmental Project

Narrative Summary:

THE ELECTRON CORP., BLACKWELL, OKLAHOMA: The Electron Corporation was issued a Consent Agreement and Final Order (CAFO) in settlement of a Complaint and Notice of Opportunity (Complaint) which was filed on March 31, 2000, proposing a penalty of \$13,000.00 for alleged violations of the Toxic Substances Control Act (TSCA) Polychlorinated biphenyl (PCB) regulations found at 40 C.F.R. Part 761. The Electron Corp. has agreed to pay a civil penalty of \$3,250.00 and do a SEP for a cost of \$18,600.00. The SEP provides for the removal and proper disposal of 100 PCB Capacitors that contain approximately 450 kilograms of PCB-containing fluid. These PCB Capacitors are authorized for use by the regulations and are not required to be removed and disposed of before the end of their useful life.

PETROLEUM WASTEWATER RECYCLING, OKLAHOMA CITY, OK: The Region filed a Complaint on Petroleum Wastewater Recycling for violations of the Resource Conservation & Recovery Act (RCRA). The facility was storing hazardous waste without a permit. The facility had not notified EPA or the Oklahoma Department of Environmental Quality of hazardous waste management activity and had stored hazardous waste longer than the one year limitation stipulated by RCRA. The Complaint assesses a civil penalty of \$1,550,727, requires PWR to immediately cease accepting hazardous waste, and remove all hazardous waste stored on site.

UNITED PLATING, OK: A Complaint and CAFO were filed against United Plating, 09/29/00. The Complaint alleged RCRA violations stemming from facility's failure to meet "storage permit" exemptions (i.e., no hazardous waste labels, missing inspection reports), failure to ensure that the drum in the satellite accumulation area was labeled and closed, and failure to meet the used oil storage requirements.. A \$28,424 penalty was outlined in the Complaint. The violations were observed during a Compliance Evaluation Inspection.
